EVENT PROFILE

Cambodia Building Architecture & Construction World Expo 2011 (CamBuild 2011) is the annual largest international Business to Business Exposition for the building & construction industry in Cambodia. The event will feature new construction technologies and building materials, exciting "Green" architectural concepts, a vision of the new cityscape and a quality lifestyle, with eco products and services. It's the place to see and discuss the hottest products on the market and network with your friends and allies.

Organized by Ministry of Land Management, Urban Planning and Construction and International Data Group (IDG ASEAN), CamBuild 2011 is the perfect showcase for suppliers and manufacturers looking to market and sell to builders, architects, developers, dealers, and distributors.

CAMBODIA CONSTRUCTION OVERVIEW

Architecture & Construction Project Companies 2000-2010

CONSTRUCTION OUTLOOK 2011

During the first five months of 2010, the Ministry of Land Management, Urban Planning and Construction approved 889 construction projects worth a combined \$271 million. It is hoped that a new law on foreign ownership of property will kick-start investment in the sector. The government is considering a sub-decree on the foreign property ownership law to clarify the percentage of a building that can be privately owned by a foreigner.
